Breaking New Ground

"Today is just the beginning for a new Manual High School that will include new rooms and libraries." -Mr. Poole

"I was invited by Mr. Poole and Mr. Lucas because I am an alumn from the class of '62 and I am a member of the alumni board." -Mr. Hamner

by Katie Haskins and Krystal Wotoweic

Emmerich Manual has been a second home to many people in the past. Manual was originally downtown on Delware and McCarty. It was moved here to Madison Avenue in 1953. "When Manual was built, it was one of the most attractive and modern schools. Even now, the dramatic entry way is very elegant. After 51 years of use, the building is a bit worn out, and it's just simply time for a makeover," Mr. Poole said.

The new and improved building will include a new library and new rooms that will be enhanced with modern technology and added work space for teachers and students. Also, included with the new physical makeover, an internal makeover is evolving using five Small Learning Communities (SLC's). They include STAR, Arts.com, LEAPS, Apply, and ABCs.

By the fall of 2005 a new structure will take place inside the walls of Manual and by the fall of 2007 the outside will be completed.

Representitives help break ground. IPS Superintendent Dr. Pat Pritchett, Mr. Poole, Schmidt Associates, Jackie Simmerman (Alumni Board), Kelly Bentley (Pres. of school board), Joyce Burns (Parent), Mr. Phillips, Mr. Dill, Mr. Hamner, Leadership Club, Choir, ROTC, and the kindergarden all attend the ground breaking ceremony on Sept. 8. Two ceremonies took place. One during the day at noon and on later that evening. "It will be great for Manual to be remodeled!" Krystal Wotoweic said.

Dr. Pat Pritchett talks with us about his feelings about the remodeling. Dr.Pritchett is the IPS superintendent. "Today is an exciting day in the life of Manual, because we're beginning a construction project that gives the students the same faculities as other schools around us," Pritchett said.

It's the FACTS!

\$26 million to remodel Manual.

Students' classes will move to other locations in the school as well as student parking.

Students must wear their I.D.'s because of the remodeling.

MOBILE ROOMS

Movement of classes and offices construction

Ms. Valentine

"I'm not mad. I think that this will be better for Manual, because this will make Manual more beautiful than it is now."

Construction starts in September, after the groundbreaking ceremony.

Classes were moved to the upstair's gym, wrestling room and main auditorium areas.

Administrative offices were moved to the band room.

Main auditorium has the library on the stage.

Classes will rotate into these areas during all phases of the construction, which is projected to be finished in 2007.

The Main Auditorium Stage

The stage becomes the library during constructions. It took Mrs. Koors and Ms. Woods approximately 1,000 boxes and two full weeks to pack up the library. Mrs. Koors said, "Organization has been the greates challenge using the stage. Deciding where everything is going to go and then trying to find it all."

The Mobile Library in process . .

"Approx. 40% of the non-fiction books, 30% of the fiction and biographies, and 100% of the reference books are available for staff and students to use."

Before & After

Yearbook students, Rocco Ardizzone and Stephanie Walker, look out a third floor window after being distracted from work. "We were hoping to see progress on the road," Walker said.

A day of distractions and destruction

On October 28, on almost every floor in the East wing of the building, kids ran to windows. It was second period, and the construction crews were outside breaking up the sidewalk for the new bus lane. "It's distracting for students, but it doesn't stop the kids from learning," Ms. Millikan said.

On the other hand, Mrs. Hallquist said, "It's another story for teachers." Mrs. Morgan agreed, "It's disturbing, because the kids keep running to the windows." A sophomore in her class, John Lee, also agreed saying, "It's annoying."

Sparks fly! The auditorium and the wrestling room are being made into temporary classrooms so construction can start on the East wing of the building.

Construction begins. A lot of work is going into the auditorium, where classrooms and the library will be.

Out with the old. Going from the second floor to the auditorium stage, the new location of the library will have to take some getting used to. "It's a temporary inconvenience, but we will eventually be on the first floor," Ms. Wood said.

A Glance at the

What do you have to say?

Teacher Ms. Haughawout said, "I think it's going to be a dirty, difficult time that will impact every aspect of school life."

"I'm excited for the final project," teacher Troy Judd said.

"I think the changes will be better for the students. There will be alot more room to move around." said student, Josh Harris.

Junior, Laura Beach said, "I think putting classes in the auditorium is a bad idea because teachers won't be able to teach their students in a quiet, organized manner."

In 2002, the discussion of renovating the school came upon the superintendent. Manual has been here since the late 1800's, and it is finally being updated after a century.

"I think that it will be a big hassle, but it will be well worth it," Mr. Bergeson said.

Working

"I feel that the construction is very beneficial for the school. It also interferes with the learning environment of the students, because of the loud noise and the relocation of classes." -Brandon Ray (B-Man)

Hard

There will be many changes made to the school. When it's finished, Manual will look newer than ever. "I think we're going to have to sacrifice for the next three years to make things better," Mr. Swinford said.

Under Construction. Dirt is being moved out of the way for the future bus lanes. The construction workers appear to be working hard and getting a good start on renovating the school. "Most days we are on schedule, and some we're not; it just depends on how much work we get done in one day," Mr. Poole said.

The new road for the buses will wind around the school. This will allow the buses to let students off at the main doors on Madison Avenue. It is going to be two lanes wide, with handicap and visitor parking. "I think it's going to be better, because it's not going to interfere with the teacher parking," John Fitzpatrick said.

Inside & Out

How do you feel about the construction?

"The people working on the school made a lot of noise, and it was distracting." - Melinda White

"I think it's going to be painful for everyone to go through, because it will be noisy and dirty. The good thing about it will be that we will have air conditioning in every room." - Mrs. Farr

"You can hear the drill from the machines all day." - Mr. Lyon

"I don't like walking through the school, because I'm always late to class. It's inconvienent." - Lauren O'Connor

Most of the time everything was on schedule. The road will not be finished until March of 2007. None of the student parking will be affected by the road construction. The football field is not part of the project, so it will remain the same.

For the first time in history every student at Manual High School is in an academy. There are four different academies including STAR, APPLY, ARTS.COM, and finally LEAPS with the TEACH magnent. The school was not able to do that completely, because there were no senior level classes that were pure academy. The lunches this year are separated by academy. This is because of a 25 minute planning period that each teacher gets with their academy. They only get to use this 25 minutes three times a week.

Every academy had to do something on the first day of school. For instance, the academies had to hand out t-shirts, go over expectations, listen to guest speakers, play games, and team building activities.

Every student has to wear their ID's around their neck, and the school provided the students with different colored lanyards. Each color matched to a certain academy.

The school planned that next year the academies will have to choose two new faculty members to fill the positions of the new Academic Dean and the new Facilitator of Teaching and Learning. These two new faculty members will be the new Academy Leaders.

Arts.com made tie-dye T-shirts on the first day of school. Teachers agreed to wear them every Thursday.

This picture was drawn by Jessica McDonald. "This is a project that I had to do because the teacher told me to", McDonald said.

Jamie Steeb and Valarie Johnson are some of the STAR Academy juniors on the first day of school, receiving rules and regulations.

On the first day of school, students participate in the schools first annual academy day. After picking up thier schedules in the gym, the students report to different locations according to their academy.

TOWN FLOW PLONE

Phase I

A new road will be built around the whole school as a way for the buses to have better access to the school.

Phases II

The offices will be moved closer to the main entrance. There will be elevators near the main office. The library will be moved to where the main office in now located.

Phase III

anual, an Educational Community

The main entrance on Madison Avenue will once again be used. It will be used for all students and visitors to come into the building.

Phases IV

In the end, we will have a new cafe, library, classrooms, and road around the whole school for easier access.

Phases of Manual's Construction.

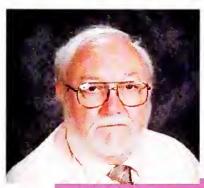

Building Up! The construction crew began the construction process by placing a fence around the school where they plan to build a road.

All Fall Down. The construction crew began by cutting down all of the trees around the school, so they could begin setting up the fence.

"We are on schedule, and some of the classrooms will be moving into their temporary classrooms very shortly," Mr. Lucas said.

Dig Away! There have been a lot of machinary around our school as the construction crews dig where the road will soon be.

Small Learning Communities

STAR, ARTS.COM, TEACH/LEAPS, APPLY, ABC

STAR, a magnet program

STAR Academy has a rush day each year to recruit members to join FFA. FFA is an organization for Future Farmers of America. "Although all I did was cook and it rained, I had fun," Anthony Lambert said.

TEACH, a magnet program

Students in TEACH go to their classrooms and go right to work. While working and doing a little surfing on the web, they also have light conversations with their classmates. "I have a lot of fun being in teach," Sharniece F. said.

Mr. Brunsting Director of SLCs

Manual recieved a Carnegie grant, which enabled the Small Learning Communities (SLCs). "I feel that we are using the district SLCs as they should be done, and although we still have a long way to go to make it better for the students; we are doing better than any other schoool at this point in time," Mr. Brunsting said.

"We are going to SLCs so the students of Manual High will feel more connected to the students around them. Going to SLCs will encourage the students to feel more comfortable with the teachers and students around them so we won't lose as many students between their freshman and senior year. I believe that SLCs will be an advantage because there wil be more smaller groups of students with more attention to each individual."

A Few Projects

During class, students work on self portraits. Senior, Brandon Leeper, attended a mural convention in San Antonio with Mr. Judd. "I have always loved art ever since I was very young, and I really enjoy the whole academy group idea. I like being in ARTS.com," Brandon Leeper replied.

Activities

-On the first day teachers, tie-dyed their academy T-shirts for all enrolling students in ARTS.com.

-We plan to do crafts, workshops, speakers, and other related activities for PBA days.

FeedBack

Mr. Alter

-thinks that ARTS.com is about learning music, theatre, poetry, painting, and other activities which involvee art related aspects in all areas of academic study.

-thinks that our school is dividing up into small learning communities to assist students in their high school experience.

-thinks that some of the teachers in ARTS.com have "art related" skills and interests which are not directly tied to the classes they teach, which will end up benefitting the students.

DirectorMrs. Ubelhor

"ARTS.com is committed to creating life-long learners, who through the arts, achieve academic and personal success," Mrs. Ubelhor explains.

Having a little fun. Some students sat on the bleachers with Mr. Cook on the first day of school. ARTS.com has continued to grow within the two years it has existed. "I really enjoy seeing new faces in Arts.com," Mr. Cook said.

Study Hard! Whitney Henry is taking a test in Mr. Alter's class. There are many different students in Alter's class that are in other SLC's. "ARTS.com is a pretty good program, especially if you have artistic ability," Henry said.

Mr. Judd tye-dyes the ARTS.com T-shirts. Judd has an after school program for all art students. "I really enjoy working with ARTS.com students," Judd said.

LEAPS Academy

The LEAPS/TEACH Academy (Teacher Education Arts and Careers) is designed to provide students the opportunity to pursue a career in teaching. The goals are to attract students of various ethnic and socio-economic backgrounds into the teaching profession, to develop an awareness and understanding of the field of education as a career, and to facilitate access to higher learning. A stronger collaborative educational relationship with Ball State University Teachers College creates unique college level experience for the students. This is a college prep program that emphasizes technology, community service, and cadet teaching.

Working to make a difference. Mrs. Leser talks to her students. Together they composed a list of classrooms that they like to help teach in. "We learn different ways of teaching, and also we learn how to become leaders", said Jimmie Centers.

Ahead of her class. Shelly Grover gives a presentation on education. "Through the LEAPS Academy you learn how to become a leader," Melissa Cridlin said.

The LEAPS Academy offers students the opportunity to enrich their high school learning experience through connections with careers in the fields of law, teaching, and public service. Students in LEAPS take a full load of academic classes, which are reinforced and complemented by relevant electives and service learning experiences. LEAPS consist of two learning strands...

TEACH Academy, a magnet program dedicated to educating students interested in all levels of teaching; and Community Builders, a program dedicated to preparing students for good citizenship and careers in the field of public safety and law, counseling, and philanthropy. All LEAPS students will follow a CORE 40 curriculum that will prepare them to enter work or further their formal education after graduation.

As a LEAPS Student they:

- *Freshman: Teaching 9 is a freshman level introduction to the teacher education program. The survey course focuses on college preparation and careers in the field of education. The four year portfolio is started.
- *Sophmores: Teaching 10 is a sophmore level class that includes study of human development and cognitive skills. Personal wellness, family and social structures, and multicultural diversity are explored and valued.
- *Juniors: Teaching 11 is a junior level class that examines the history of education. Lesson planning and evaluation methods are taught with an emphasis on presentation skills. Students participate in classrooms one or two days per week.
- *Seniors: Teaching 12 is a senior level class that produces the cumulative four-year portfolio and project. This class supports that work done in cadet teaching.
- *Cadet Teaching Experience: This course provides students in grade 12 organized exploratory teaching experiences in grades Kindergarten through 9. This course provides a balance of class work relating to: classroom organization, classroom management, the curriculum and instructional process, observations of teaching, and instructional experiences.

Role Playing. Ms. Cameron talks to her class as Jimmie Centers listens in. They worked on a topic dealing with messy people and they did some role-playing also. "I enjoy the hands – on experience involved," said Jeremy Chastain.

Teachers in APPLY meet to discuss upcoming events in the academy. The meetings are held three times a week during first lunch. "We have been discussing what the portfolio should say for our students and parents on what they are going to learn from APPLY," Marone said.

Some people aren't happy being in APPLY like Stephanie Walker. "Being in APPLY is not that great. We are just a group of kids with a name put on us."

Why I like APPLY....

"The reason why I like APPLY is because we get to do something else besides book work. While in APPLY I have built a stand for my dirt bike," Robert Wilson said.

"I like APPLY because we get great opportunities and the teachers make school a pleasant place and fun to learn," Angela Rumple stated.

APPLY

"What we teach you; you can APPLY."

Q&A Brittany Rowe-Rent

1. Why did you choose to be in APPLY?

"I want a career in biomedical engineering, and in order to do so, I am taking a lot of math and science classes." 2. What all have you done that benefits you from the APPLY Academy?

"I got accepted to a science program through Purdue University." 3.How is APPLY helping you as a student?

"Since it is a small academy, it is giving me a better and closer conection with my teachers."

During ceramics class, Mr. Doughty helps a student with her project. He helps shape the clay to make it look like a great work of art. "With being an art class teacher, sometimes I need to help out." Doughty said.

Working Hard In Class

Students in APPLY work diligently in Mrs. Farr's Algebra 1 class. The students take notes and to help them understand math, "I let students work together to help each other learn better," Farr said.

Teachers Taking Action to Improve

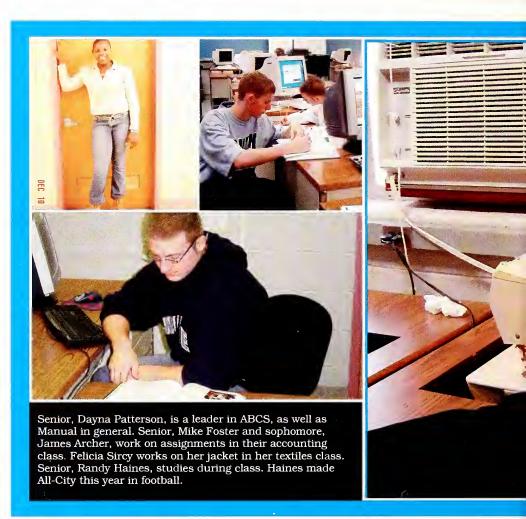

Ms. Scarsella and Mr. Marone, over fall break, went to Calfiornia to visit some schools. They wanted to see how the technology academies in other schools work. Ms. Scarsella said, "The direction education is taking is a direction toward creativity in teaching. Students can learn more from new methods than traditional methods. The new wave of education gives students a say in how they learn. IPS is definitely headed in this direction, and I would like to help lead it there."

"I like this class, because it can help me in life when I get older, and it's a new talent that I can build on forever," Felicia Sircy said.

Sophomore, Mayra Herrera, sews a sweater for her beginning textiles class. Mayra looks forward to eventually making a skirt. "I like this class, because I like to sew, and I always learn more every day," Mayra said. Freshman, Megan Perry, works on a jacket in her beginning textiles class. She liked working with the sewing machine this year. "I really enjoy this class because we get to construct things in our own little way," Megan said.

Q & A

What is the best part about being in begunning textiles?

Sew it up! Sophomore, Alicia Aycock, makes a hoody for her beginning textiles class. She had to make a purse earlier in the year. "Being able to make things exactly like you want them is the best part about being in this class," Aycock said.

Sewing a hoody for beginning textiles, Betty Lawson, sophomore, completes her assignment. She liked making the purses that this class had to make. "I like to make different things in this class, like hoodies and purses," Lawson said.

Sarai Montes, sophomore, makes a jacket for her beginning textiles class. "I like this class, because I am able to sew different materials that I want to," Montes said.

People & Manual

Manual's Got It Going On With Students

Everyone is a different person at school and at home. People have different personalities and different social needs. When it comes to Manual, nobody is withheld from a club or sport that fits what they like. Manual has clubs for people who like to play video games, dance, sing, or volunteer work, to name a few. Also, Manual's sports are well liked by many students. Being new to a big school is common, and students are encouraged to

participate in clubs and attend sport events.

During passing periods, students have the advantage of walking outside in the courtyard to move from class to class. "I talk to a lot of my friends during the passing periods; it is a chance for me to see what is going on," Elijah Prater said.

Having Fun In School

Football players, Chris Powers, Dustin Wethington, and Mike Jones are all hyped up for Spirit Day.

Many students get hyped up for opposite day. Boys dress like girls by wearing dresses or skirts, while the girls get comfortable wearing baggy jeans and big T-shirts. "Being 'Dedra' for a day was a blast!" Patrick Buchannan said.

Wethington helped students by painting faces before and during school. "I wanted us football players to be excited about the game," Wethington said.

Helping Out The Team

Managers for the boys wrestling team watch and learn from the wrestlers. The girls learn how many points each move is worth to help keep score. "The coaches asked me last year to be a manager and my brother wrestles, which is fun to watch," Kayla Dyson said.

Fans of all ages come out to support the boys basketball team at home against Northwest. Even though the boys lost, the fans still cheered loud for the team.

The peer tutors assist the children as they eat their lunch. They eat lunch at about 11 AM, and do more learning activities before ending the day.

"I have been working with the kindergartners for two semesters." Tiffany loves working with the kids. "It really helps me out with my future."

Chasity Powell and Taryll Miller visit the nurses office. Chasity loves children and being involved with their education.

<< Helping Out

"Becoming a peer tutor is a hard job. Then, after a long time, you feel good knowing you make a difference in someone's life," Garten said, "If you love children as much as I do, peer tutoring is the job for you."

-Candace Garten

<<Circle of Fun

The kindergartners sit in their learning circle. Miss DeLashmit taught them to count by twos, and they learn fast.

Looking Ahead >>

"I love to help others," says
Christina Ferguson. "My job
was to help children with
what they need to know:
write, read, count, and help
them recongize their names.
This is a great opportunity
for me, especially, since I
want to become a teacher."

A Day in the Life of a Kindergartner

The kindergartners come to school for a fun day of learning. They arrive at school by bus or car just in time to eat breakfast. The young ones go to class, hang their coats up, and are off to learn.

Lunch

Lunch comes after the kindergartners work up an appetite. All of them enjoy lunch time.

Afternoon

As a day of hard work goes by, the children are finished with the day. Their teachers, Mrs. O'Keefe and Delashmitt, escorted them to the buses. Finishing the day was just the beginning of what they will learn tomorrow.

Mathew Mitch earns free time to work on his project while the rest of the class had to practice their ABCs. Mitch said he likes school and can't wait until first grade.

After a day of hard work, the kindergartners go home, do their homework, and relax after a seven hour day.

The boys and girls walk to their buses counting by twos. Their teacher, Mrs. O'Keefe, makes sure no one is left behind.

"We finished the season at six and eight," said Mr. Craig, girls golf.

A review of our season

"With the addition of Coach Schill and Stewart, we were able to raise the bar on our level of play," replies Ms. Oliver regarding volleyball. "The guys are beginning to compliment their athleticism with much improved basketball I.Q. They are a fun group to work with and they compete as hard as any team around," says Mr. Allen, boys varsity basketball. "The season was successful as we won the IPSAC championship for the third time in four years," explains Mr. Alter.

Manual

Athletics

"The construction will be a very positive thing not only for Manual, but also for Manual student athletes. For athletics it will be a big inconvenience, but an inconvenience that we accept gladly because of benefits that students and faculty at Manual will reep," Athletic Director, Jeff Hanni, said.

Girls Paylethall

Coach Dunbar gives a lecture about the game. Dunbar has coached girls basketball two years, but has coached athletes for seven. "Motivation and discipline are the keys to success."

Coach Stewart demonstrates how to fight off their back with Kyle Dyson. The Redskins have one of the most promising teams in years. They have a very young team led by Kyle Dyson, Simon Rigdon and several underclassmen. They are only going to lose one senior(Tracy Nims) for next year. "The future looks bright for Redskin wrestling," Stewart said.

The cheerleaders stand to the playing of the National Anthem. "Cheerleading is one of my favorite things to do, aside from dancing," Kayla Elliot said.

"The D.J. was cool, but the dance was not worth \$5.00. It was over before I could get into it."

Tony Duerson, sophomore

"I went to the game, because the drumline had to play. There really wasn't anything that I liked about it. It would have been better if we had won the game."

Candidates

And the winners are... Tanaviah Hinton and Alex Windhorst won Homecoming King and Queen on September 17. Windhorst and Hinton also won Prom Prince and Princess. Hinton said, "I was a little shocked and speechless when they called my name, but I was very happy."

Marvin Mullins

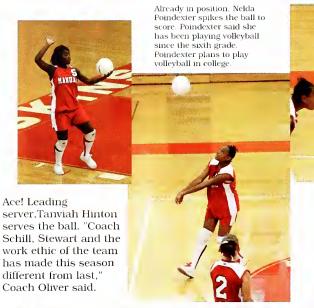

"The dance was worth \$5.00, I enjoyed myself and the D.J. was alright", said freshman Christie.

Kaitlyn Pickering, sophomore, said, "I did everything for spirit week but opposite day because I didn't feel like dressing up as a boy. Manual has a lot of school spirit."

Maria Maher and Tanaviah Hinton take on the other volleyball players in August at Coach Oliver's home. As a break from the heat, the entire team was invited to a pool party. "It helped bring the team together, because we got to know each other while having fun," Maher said.

Bump the ball! Miranda Wincel, freshman, says, "I love the game. My teammates keep me on track." Wincel is a returning player from last year.

Ashley Strode, freshman, attempts to pass to the setter. One goal for JV was to always hit the ball three times before returning it to the opponent. Strode won the most hustle award.

Racing to the Finish

When it comes to sprinting, Marvin Brown and Tony Duerson were outstanding. Marvin was the only runner to go to sectionals for hudlers and long jump from Manual. In 2005 Coach Bradley stated, "Look for out for Cletus Hooten and David Sawyers to bring lots of mean speed and dept to the talented team."

Back: Laneshiah Hinton, Amber Sanders, Coach Collins Front: Andrew McDonald, Malcom Stevens

And they're off as Cletus Hooton, Brandon McIntyre, and Corey Davis pratice for a meet at the end of the week.Their hardwork paid off as they all ran to victory across the line."Cletus is an awesome sprinter and will be a better runner for the 2005 season," said Coach Bradley.

"Being a distance runner means we have to train harder and have determination." said runner Kyle.

"The difference is that we have more stamina," said distance runner Troy.

Distance VS Sprinters

"We are better, and we have to use what we got," said sprint runner Tony.

"Being a sprinter makes you feel different beacuse you can go places and meet people you have dreamed about meeting," said Cletus.

"When I warm up I run two laps, get my stops down and do a few jumps," said Taniviah H.

"I prepare by streaching out and saying a small prayer," said Mayra Plata.

"I decided to run track beacuse I thought it would good conditioning for a student athelete," said Bianca B.

Running to Victory

Girls track was off with a good season this year with a group of girls who where to determined to win. "The girls worked very hard and put forth an outstanding effort," said Coach Bradley.

Laniesha Hinton pratice's shot put before a meet intended for the end of the week. She was one of four shotputer's on the boy's and girl's track team. Laniesha said "that my furthest throw was 28ft, which was a great acheivement for me."

101 on how to Stretching

We stretch our arms by putting one arm over the other by having one out, then we switch. This is to stretch our arms out to help run faster.

We do lunges which you lean to the left then to the right to stretch our hamstring muscle so that you don't pull them.

The team also does push ups to streatch our arms and legs both at once to get ready to run.

Latia Jointer I get relaxed, focus on the game, and take many practice swings before a golf match."

Hole in One! Senior and Captain of the golf team, Daniela Sharp is ready to take a long hard swing. Daniela has played golf since she was 12 years old. "The funniest thing about playing golf was the practices. It was fun to hear Craig yell at us," Sharp said.

Lost and Found! Sophomore Bianca Bullock hits the ball and strains to find its landing. This was Bianca's first year playing, and her best score was 51. "All I remember was I hit the ball, looked up and it was gone.

Junior, Daniela Sharp looks for her ball in hope that it reaches the hole. She was chosen to be the captain of the golf team this year. "Practices were the funnest when Coach Craig would yell at us and tell us to do different things differently," said Daniela.

Get ready! Senior Dayna Patterson lines herself up with the ball. Before stepping up to hit, Dayna took many practice swings. "I putt on the putting green and take practice swings."

Senior A.J. Sanders was one of the top 10 golf players in the city.

Coach Craig was named golf coach of the year.

The boys golf team defeated every IPS school this season,but didn't finish well in IPSAC.

A.J. Sanders was captain of the boys golf team.

Age: 16
This is Junior, Amanda Sager's first year playing golf. Sager said she caught on well, but could do a lot better. "Golf seemed boring to me until I actually started to play.

It's not that bad after all."

Eighteen-year-old, Daniela Sharp is the captain of the golf team and has played since she was 12 years old. Daniela said, "I basically block everything out of my mind and concentrate on getting the ball into the hole."

Bianca Bullock is a 16-year-old sophomore who tried golf for the first time this year. "Bianca is so dedicated to golf, she pulled her book out for class and her lucky ball was stuck inside", said Melissa Parsons.

Run! Alex Windhorst stands on 3rd base. Alex also played football and basketball. "I'm inexperienced, but my skills make up for it," Windhorst said.

Play Ball! Pitcher, Joey Hancock, is throwing against Perry Meridian. Hancock also played football. "If I had to choose between football and baseball, I would choose football because of the physical aspect of the game," Hancock said.

An All-City player. Michael Query pitches the ball to the opposing team. Michael was inducted into the .300 club with a .422 batting average. "I felt good about making 88 All-City," Query said.

Batter Up! Matt Groce steps to the plate as his teammates look on. The Redskins suffered one of their worst losses of the season to Cathedral. They did end the season on a high note with a 6-2 record as IPSAC Champions. "Matt understands the basics of any position he is assigned,' Coach Alter said.

One of the best-kept secrets. John Rardon is throwing from third base. John was co-Captain of the team and won the Pitching Ace award. "Out of six wins in IPSAC, John won five of them," Coach Alter said.

Heads Up! Coach Alter gathers himself after a low line drive by Michael Query hit him. He still managed to finish the game. "That was the first time I got hit with the ball in twenty-five years." Coach Alter said.

Close call. James Archer tags out a runner. James' only position was second base. "Being a freshman James Archer was a really good second baseman,"said fan Ashley Smith.

We will rock you! Together the team cheers on Jennifer Ross while she's up to bat, singing their cheer "We will, we will rock you." The team has many cheers for all situations to encourage each other. "Our team enjoys doing cheers to stay up in a game," Ashley says.

K. A. all the way! Before each inning, the Lady Redskins group together to build confidence as a team. They also pray before each game to protect each player from harm. "I like it when we group together, because it gets us hype for the next inning," exclaims Amanda Sager.

Focus! Coach Husted soft tosses the ball and works with the Lady Redskins on hitting before the game. This is over ten years of coaching for Husted. "If you believe in yourself, you can accomplish anything," said Husted.

Girls Tennis

Roster:

Shannon Doty, Snanta Davis, Erike Peneton, Raquel Plata, Melissa Cridlin, Kayla Cridlin, Nikki Fisher, Heather Catlett, Sere Conde, Alyssa Besser, and Cherrish Massey

What's the biggest game you have ever played?

"The biggest game I ever played, was agianst Broad Ripple. I was the only one who won from my team," Shannon Doty said.

Watch Raquel go for the ball! Raquel is a senior and in National Honor Society, she graduated June of 2004. She also ran track.

Playing tennis is one of Kayla Cridlin's favorite things to do. This was her first year playing at Manual. "I had fun and made a lot of new friends," Cridlin said.

Heather Catlett is ready for the ball. She was in leadership and senior council. Heather graduated in the summer of 2004, in the top 50 of her class.

Cha-Bang Raquel Plata, goes to hit the ball agianst Broad Ripple High School. She was a captian of the tennis team for 2 years." It took along time to reach where I am now, like to be a leader and other things like that." Raquel said.

Kazam! Sere Conde goes for a slam against Tech. She proved as one of the best when she took 5th out of 54 kids in IPSAC. "It took a long time to get this good. If I did not come to practice and listen to my coaches, I would never be this far," Sere said.

Facts

The girls tennis team record was 3-10.

Raquel won IPSAC this year.

The girls beat Arlington.

The girls tennis team finished 4th place in IPSAC.

Reaching: reaching for the ball when the opposing team has control of the ball.

Sophomore, Bianca Bullock tries to get the jump ball against Greenwood. Bullock looked foward to playing Tech this year. "I like the way that Coach Craig is involved with all of us on and off the court," Bullock said.

Junior, Amanda Sager discusses a play with Coach Craig. Sager also played softball and golf. "The most important things about basketball are playing as a team, hard work, and improving everyday," Sager said.

Focus! Freshman, Miranda Wincel gets ready to play a game of volleyball. Wincel saw playing volleyball as a good opportunity. "I think the best part about playing volleyball for Manual was being active and getting to know my teammates," Wincel said.

What makes playing sports for Manual fun?

"All the supporting fans and people around the school that care for us girls."

Trenee Lambert

"I like the game, itself, and playing with my friends." Amanda Sager

"Just playing the game and meeting new teammates."

Maria Maher

Freshman, Jessi Lynn spikes against Northwest. Lynn played competitively. "I made a lot of friends playing volleyball, and I am looking forward to playing next year," setter, Melissa Parsons, said.

Maria Maher dribbles the ball up the court againist Liberty Christian. The Redskins beat Liberty Christian and Maher scored seven points. "It is fun to play and compete," Maher said. Wincel hits the ball to Northwest. Wincel believed that her coaches taught great ways to play as a team. "The most important thing that I learned during volleyball was that you should always trust your teammates. Don't just think the team is all about you, work as a team," Wincel said.

Trenee Lambert guards her opponent.
"The thing I like most about it is the fun you have with your friends; because being with them, having fun with them, and working together, makes our friendship stronger," Lambert said.

Mr. Poole awaits the crowning of the prom queen, May Moore.
"The prom is a lot of fun. You get a whole different perspective of the students."

Everyone kicked off their shoes to boogie to the train! The three hours that Ashley Beasley spent getting ready, paid off in the end. "The most memorable moment was the whole night. It was just a lot of fun."

Laneshia Hinton, one of the only sophomores at the prom, said the after-party was a nightmare. "I had to sit in a cold basement for four hours. I couldn't move or talk, because the police were upstairs. Finally, the police left, and everyone's cars got towed."

Nastassia Hinrichsen, junior, is cheering for the prom court. She was accompanied by John Rardon. Hinrichsen said she can't wait until her senior prom. "The best part of the night was the after-party at my house."

Amber Sanders and David Puckett "I felt that the prom is truly a person's most memorable night that they will have before they graduate," Amber Sanders said.

Lauren O'Connor and Clarence Everidge

O'Connor loved the prom, She liked that everyone danced and let loose. She also described the prom as hype and said, "There is nothing I would have changed."

Wyman said.

As they call out the line-up, Valerie Johnson and Ashley Smith fly to pump up school spirit in the crowd. "Cheerleading is a great sport that helps me keep in shape for dance," Kayla Elliot said

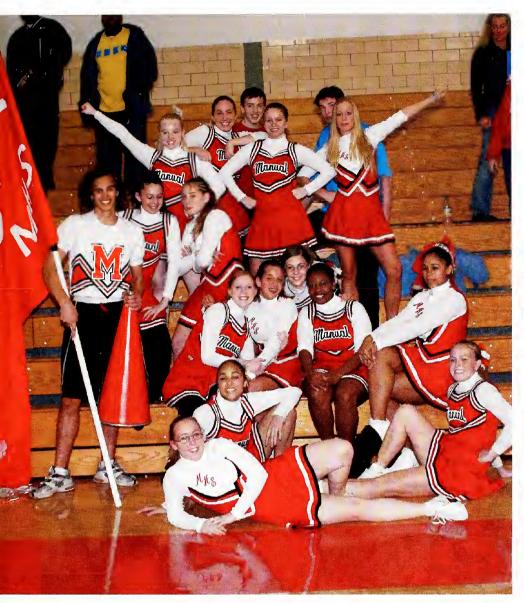

Go Manual Go! The Lady Redskins have one of the greatest squads this season. They have three seniors. Jennifer Ross, Ashley Smith, and Dustin Wyman. "This season was really fun, I loved our varsity squad." "We all had a lot of fun," said Ashley Smith.

Girls just wanna have fun! During this basketball season, the cheerleaders learned log-rolls and some tumbling. The squads usually act as one, even though they are two different squads. "I thought that because I was on JV the Varsity would treat me different, but really we were all considered as one equal squad," JV cheerleader Christina Sprague said.

During the first and second quarter, they pump the crowd up with a cheer. "The three years I've been with cheerleading I've really enjoyed it. I would advise anyone to go out for the squad," Ashley Edwards said.

Senior, Jennifer Ross played softball all four years but only cheered her senior year. "Othcr than all the hard work and pressure, cheerleading is exciting especially when you get an adrenaline rush from flying," Jennifer said.

All of the baseman stand alongside the cheerleaders for the National Anthem. Senior Jamie Pilk participated in football and baseball. "Being a baseman requires more strength and concentration than what people think," Jamie said.

Both squads do a build that they worked into a cheer. The flyer was the person going up in the air, and the base lifted the flyer. Vallory Johnson joined the squad at the last minute during the football season. "I improved a lot since football season, but, at times, it was stressful," Vallory explained.

> Senior, Ashley Smith is on a shoulder sit with Dustin Wyman to support our players as they shoot a freethrow. This is Ashley's second year on the squad and her first as a captian. "This year wasn't as fun as last year's squad, but we worked with what we had," replied Ashley.

As the team winds down on a victory, they still have time to play around. The Redskins won against all three schools during the triple duel held at Manual.

GET READY

Tracy Nims steps up to face his competitor, the Deaf School. Nims pinned his opponent in 21 seconds in the 189 pound weight class. "This guy was just pratice for me to get better," stated Nims.

Simon Rigdon made it through the second round at semi-state. Rigdon praticed before and after school with fellow wrestler, Kyle Dyson.

David Mann is a three-year wrestler. He liked to practice. His motto was, "The more you work the better you get."

Take Down 3

As the referee whistles for the win, Kyle Dyson pins Lutheran High School. Dyson won three more in the triple duel. "Although only one wrestler has made it to semi-sate in the past two years, we are a very young team and expect big things next year." Dyson stated.

Being a wrestler is hard work, especially when the win is against another great wrestler. That didn't seem to bother Correy Davis and Brandon McIntrye with Jennings County. Dustin Weathington also tried hard against the Deaf School, but lost in a close match.

Playing hard through all four quarters...

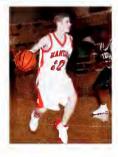

The Three Fundamentals of Basketball.

Defense: We have heard it a million times, "defense wins championships." No matter how bad your shooting is from the floor, if your defense is solid, then you still have a chance.

Offense: It is defined as the act of attacking and the abilty to score.
Combine this with defense and your almost always guaranteed to win.

Constistency and Teamwork. This means to avoid making careless mistakes and working hard to make that extra pass to a teammate who's open.

Time out! Coach Triplett and his team take a look at the playbook. They begin to discuss what their next play is."Teamwork, defense, and rebounds are the most important things in basketball," Justin Johnson said.

Working Hard. Guard, Justin Johnson, puts some defensive pressure on Tech's guard, no. 34. They won their first home game of the season. "They were consistant through all four quarters," fan, Olympia Garcia, said.

Basketball

Keyuana rolled her ankle in practice. She is a varsity starter and averages 13 points a game. "No pain, no gain," Bradshaw said.

Keyuana Bradshaw

Volleyball

Nelda bruised her hip and sprained her ankle in practice. She also sprained her wrist in a game. Nelda is a varsity volleyball player. "Although in much pain, I learned to play through it," Poindexter said.

Football

Dajuan Newsom is a varsity starter, but will not start this season because of torn cartlidge in his leg. "I'm glad it started my season instead of ending it," Newsom said.

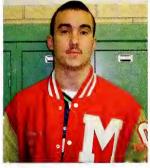

Dajuan Newsom

Randy Haines injures his hand in a game. He got it wrapped up and was fine to go back in the game. Haines stated, "I couldn't let the pain stop me, because my team depended on me."

Tough It Up!

Through injuries and pain, our players were able to suck it up and stay tough. Each individual put out their best effort to improve themselves, their performance, and the their team.

"My
strained
Achillies
tendon
affected my
speed on
the field."

Joseph Hancock

Common injuries

- 1. Sprained Ankle
- 2. Sprained Wrist
- 3. Broken/Fractured Bones
- 4. Torn Tendon/ Acls
- 5. Cramps (in legs, etc...)

Soccer

Senior, Deisy Roman, fractured her arm during soccer practice. Besides being a member of our soccer team, Roman also took part in organizing "Juventud Latina," an afterschool program offered to Hispanic students. "I love soccer, but this is my first year playing, so I'm not that familiar with the rules," Roman said.

X-Country

Dustin Wyman twisted his ankle during cross country season at practice. He was able to push through his pain and decrease his time by one minute. "I was proud of myself, because even though I twisted my ankle, I was able to beat my time during IPSAC," Wyman said.

Winning Projects

Shane Kelly's artwork won the chance to be displyed at the Department of Education building for one year. All together, this drawing took about 60 hours to complete. Kelly said, "It is one of the purest forms of expression. There are no rules, no eyes watching, and no expectations. You can truly be yourself without limits."

Sophomore, Blake Carey, drew a self portrait of himself. It took him less than a month to complete. This drawing won an art contest. Carey won a \$600 frame to put the portrait in, and it's going to be in the "Department of Education" for a year. Only 10 students were selected from Indiana, with Carey being one of them. He has the largest premiere piece of the show. "This is my first art contest that I've entered and won," Carey said.

Overcoming and Moving Foward

Ms. Mann

"The development and implementation of small schools was my greatest challenge this year. I overcame it by praying, an awful lot, and communicating. Communication was the key in making important decisions."

Moving to class on time was a problem for students to overcome with all the construction. Five minutes to go from the upstairs gym to the art wing was impossible. After a student sit-in of about 500 students, passing periods were increased to six minutes.

The first floor was the final shut down for Phase 1 of renovation. An outside hallway was bulit for students and teachers to bypass the first floor.

Loud noises happen when classrooms are built without ceilings. Miss H stated, "At first, it was really difficult to teach, since everyone could hear everything. It is now much better, since the walls were extended to the ceiling."

Teachers had problems during construction. They had to adjust to smaller classrooms and signing in by 7:15 am at the other end of the building.

Administrators, guidance counselors, and secretaries made a big change by moving into smaller offices in the band room.

Turning the upper gym into classrooms affected many sports. Players had limited space to pratice.

Change is happening throughout the school. The auditorium became four classrooms, with the library being on the stage.

Changes to the school include a road around the school for buses and visitors and the cafeteria will seat 600 hundred and have restrooms.

A new softball diamond is in the works because of the new road. The field will be closer to the railroad tracks, so the games do not interfere with track.

On top of construction, Manual High School will become five small schools with academic deans and facilitators.
